Bug ID	Bug Title / Summary	Severity	Priority	Environment	Description			Attachments	Assignee	Notes
					Step to Reproduce	Expected Result	Actual Result			
BID0001	The upload allowed non-image file types (e.g., PDF, DOCX) to be selected and uploaded without any validation error.	Blocker	High	Browser: Chrome Operating System: Windows 11	1. Open URL 2. Click on Profile Section 3. Upload a non-image file (ex: PDF, DOC).	The system should block the upload by showing an error message "This file type is not allowed"	Uploading starts without showing an error message, and then leading to a crash.	Screenshots	RN Sulakkana	
BID0002	Files larger than 5MB were accepted without any error message, and the file submission failed silently.	Major	Medium	Browser: Chrome Operating System: Windows 11	1. Open URL 2. Click on Profile Section 3.Upload a image file larger than 5MB	Files larger than 5MB should display a clear error message "File size more than 5MB is not allowed", and the upload should not proceed.	Files larger than 5MB were uploaded but caused the Webapp to fail during submission, with no error message.	Screenshots	RN Sulakkana	
BID0003	When Uploading a profile picture, even a small size, took an abnormally long time (More than 10 seconds), which led to user frustration.	Major	Medium	Browser: Chrome Operating System: Windows 11	1. Open URL 2. Click on Profile Section 3. Upload a image file with less file size	The image should be uploaded quickly for small files size.	The upload time for a small image file size exceeded 10 seconds, resulting in a poor user experience.	Screenshots	RN Sulakkana	
BID0004	The image is not updating even it uploaded	Minor	Low	Browser: Chrome Operating System: Windows 11	1. Open URL 2. Click on Profile Section 3. Upload a image file	The image should reflect the newly uploaded image.	The image remains the same as the previous image.	Screenshots	RN Sulakkana
